

Abass David Komeh

Computer Science Student — Software Engineer

Sierra Leone | abassdavidsonkomeh@gmail.com | +23280395457 | github.com/EcoTraces

SUMMARY

Final-year Computer Science student at Njala University with an expected First-Class Honours degree and a cumulative GPA above 4.0 throughout the first three years of study.

Passionate about applying artificial intelligence, software engineering, and cybersecurity to practical challenges in environmental sustainability and digital transformation.

Completed a Network Operations Centre internship with Huawei Technologies under Orange Sierra Leone and led software development projects from concept through implementation and technical documentation.

Currently seeking opportunities in engineering, research, or collaborative roles where I can apply rigorous systems thinking to real-world problems.

EXPERIENCE

Intern — Huawei Network Operation Center

2025-06 – 2025-08

Under Orange Sierra Leone

Completed professional training in network operations at the Huawei Network Operation Center hosted through Orange Sierra Leone, gaining practical exposure to telecom operations and monitoring.

- Participated in network monitoring and fault management workflows.
- Assisted with operational support tasks and incident triage.
- Documented operational procedures and contributed to team handovers.

EDUCATION

B.Sc. in Computer Science & Information Technology

2022 – November 2026

Njala University — Sierra Leone

Coursework: Artificial Intelligence, Software Engineering, Cybersecurity, Database Systems, Computer Networks, Systems Analysis & Design, Mobile Application Development.

SKILLS

Languages: Python, Dart, Java, C++, JavaScript, TypeScript, SQL

Frontend: React, Next.js, Tailwind CSS, HTML/CSS

Mobile: Flutter, Dart

Backend: Node.js, Express, FastAPI, REST APIs

Database: Cloud Firestore, SQL

Cloud & Infrastructure: Firebase, Firebase Authentication, Firebase Cloud Messaging, Render, Google Maps Platform, Cloudinary

AI / Machine Learning: PyTorch, Computer Vision, Applied ML, Artificial Intelligence

Security & Engineering: Cybersecurity, Software Engineering

Development Tools: Git, GitHub, VS Code, Postman

CERTIFICATIONS & TRAINING

Programming in Python — Meta (2025)

Introduction to Databases for Back-End Development — Meta (2025)

Foundations of Cybersecurity — Google/Coursera (2025)

Get Started with Android App Development — Google (2024)

Programming for Everybody — University of Michigan (2024)
